Raising Standards In American Healthcare

## **The Uncommon Leader Keynote** *2004 Hall of Fame Award*

Our thanks to Quint Studer and the Studer Group ([www.studergroup.com](http://www.studergroup.com)) for naming Dr. Clay Sherman as the Charter Member of the Healthcare Management Hall of Fame. Clay was commended as a "Fire Starter" by Quint, his long time friend and professional associate. They met over a decade ago at Chicago's Holy Cross and found common ground in their belief about the need to renew and revitalize health care organizations.

Clay says, "As usual, Quint made me think! Read about the people who are really responsible for the award we received. Pantheon of Giants describes the giants on whose shoulders I've had the privilege of standing." Read about them at [www.ManagementHouse.com](http://www.ManagementHouse.com)

The enclosed audio program was recorded by The Studer Group in 2004 in Kansas City. You are welcome to distribute these materials to your friends but they may not be sold or distributed for profit.

Our best wishes to you as you contribute to the advance of American healthcare.
